

FCC Management,

No company should be allowed to abuse the media as Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary. If the FCC can regulate a breast during a football game, I am sure it has the power to control this blatant atrocity.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. This process needs to be examined and announced publicly. Thank you for your action!!
